PACE	25	Project Management Training Camp Simulation	6.4 CEUs
<p>This project management simulation course places real project managers in real-time situations. Students find themselves working in a team-based environment using computer simulations to solve realistic problems, while practicing and applying a variety of Project Management techniques. This course provides critical, fundamental skills for Project Managers who may or may not be at a senior level, but spend the majority of their time managing projects, including those who manage large and complex projects or multiple projects. Technical or non-technical managers, line or staff, individual contributors or project leaders all find this course equally valuable for professional development and career growth. This course is a requirement towards the Advanced Project Management Certificate.</p>
