MCNAIR SCHOLARS PROGRAM

Since 2003, the Westminster University McNair Scholars Program has served low-income, first-generation, and students underrepresented in graduate education on their path to graduate school under the guidance and funding of the U.S. Department of Education. The McNair Program contributes to the institution's purpose to prepare students to lead lives of learning, accomplishment, and service by offering a distinctive academic program in which students pursue excellence while promoting inclusiveness and respect for difference. To achieve this end, the McNair Program: encourages low-income and first-generation scholars to complete their programs of postsecondary education; celebrates and cultivates the strengths students bring as diverse scholars; supports the development of their academic talents and interests through faculty-mentored research that encourages students to critically examine alternatives and to accept responsibility for their learning; and provides access to graduate school financial and admissions assistance, as well as related support services. Regardless of learning style or background, participants are empowered to realize their goals of doctoral study in the field of their choice at the institution of their choice.

As the only McNair Program in Utah, we draw students from 3 campuses: Westminster University, Salt Lake Community College, and College of Southern Idaho. By encouraging and supporting qualified students through undergraduate school and the transition to graduate school, the ultimate goal is to increase faculty diversity in colleges and universities.

Of the 169 graduates who have gone through the Westminster University McNair Scholars Program, 72% (122) of students have an advanced degree or are currently in graduate school; 42% (71) have masters degrees; 5.9% (10) have professional degrees; and 12% (21) have PhDs.

Eligibility

All scholars must:

- Be a sophomore, junior, or senior who will graduate in Spring 2025 or later;
- Have a minimum 3.0 GPA OR significant academic progress in the last 30 credit hours or in your major;
- Be a U.S. Citizen or Permanent Resident; and
- Have a sincere desire to pursue graduate education.

They must also qualify as:

- Both first-generation (neither parent has a bachelor's degree) and [low-income](#)

AND/OR

- A member of a group underrepresented in graduate education (Native American, Hispanic/Latinx, African American or Pacific Islander).

Program Benefits

- Be eligible to receive a \$2,800 stipend for the summer research project.
