			NAVY SET2	Upper Division Elective	0.70 to 3.30 CREDITS
			NAVY 1010	Introduction to Naval Science	2 CREDITS
			This course is designed to provide midshipmen with a broad overview of the United States Navy, its missions, organization, customs, traditions, and the duties required of today's junior officers. In addition, this course is designed to provide each midshipmen with the basic knowledge needed for their first cruise aboard a navy ship by imparting basic information concerning shipboard procedures, safety, damage control, and shipboard organization. It is not the intent of this course to cover each area in great detail, but rather to stimulate the interest of students for study and investigation in the future. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.		
			NAVY 1020	Seapower and Maritime Affairs	3 CREDITS
			In this course we will study the history of our naval service. To simplify this endeavor, we will focus on understanding how the national and domestic		

environment, foreign policy, technology, leadership, doctrine, strategy, and tactics have shaped the outcome of many military events. By studying these recurrent themes and their influence throughout history, we will stretch the breadth of your current decision-making focus and thereby cultivate your leadership development. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 2000 Leadership and Management 3 CREDITS

The course examines organizational behavior, and management and leadership principles in the context of the naval or marine corps organization. Management theory, ethics, tactical and strategic planning, decision making, motivational techniques, group dynamics and analytical skills are examined with the goal of developing effective managerial skills and leadership fundamentals. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 2020 Naval Ship Systems II - Engineering 3 CREDITS

A detailed study of ship's characteristics and types, including basic ship design, stability and buoyancy, damage control, and the operation and integration of major shipboard components, engineering systems, and engineering fundamentals. Includes a study of the basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion systems. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 2110 Evolution of Warfare 3 CREDITS

The purpose of this course is to provide a very basic understanding of the art of warfare and its evolving nature from the beginning of recorded history to the present day. The intent is to define war, introduce the student to the concepts of conducting war, and show how technology and the human element of conflict have combined to evolve the way war is conducted from ancient times to now. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 3010 Naval Operations and Navigation I 3 CREDITS

In this course you will be introduced to topics of basic marine navigation. you will develop an understanding of the Rules of the Road, piloting, maneuvering board fundamentals, practical chart work, and tides and currents. This class, for the most part, is a hands-on, practical class. It will be one of the more difficult yet rewarding classes you take during your undergraduate studies. Be prepared to invest a substantial amount of time in this class. The aforementioned objectives will be achieved with the overall goal of preparing you for service as a Naval Officer (Surface Warfare Officers, Submariners, Aviators alike). Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 3020 Naval Operations and Navigation II 3 CREDITS

A continued study of relative motion, formation tactics, and ship employment. Introductions to Naval operations and operations analysis, ship behavior and characteristics in maneuvering, applied aspects of ship handling, afloat communications, Naval command and control, Naval warfare areas, and joint warfare are also included. The course is supplemented with a review/analysis of case studies involving moral/ethical/leadership issues pertaining to the concepts listed above.

NAVY 3110 Amphibious Warfare 3 CREDITS

A historical study of the developments of amphibious doctrine and the conduct of amphibious operations. Emphasis is placed on the evolution of amphibious warfare in the 20th century, especially World War II. Present day potential and limitations on amphibious operations, including the concept of rapid deployment forces. Additionally, the course explores vertical assault, readiness operations, and landing operations from the sea. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 3210 Marine Corps Bulldog Preparation 2 CREDITS

Course prepares Marine Option Midshipmen (MO), Marine Enlisted Commissioning Program (MECEP) candidates, Platoon Leader's Class (PLC), and Officer Candidate Class (OCC) students to attend Marine Corps Officer Candidate School. The course exposes candidates to the theory and principles of military tactics, Marine Corps leadership and decision making, and the vigorous physical fitness requirements necessary to successfully complete Marine Corps Officer Candidate School. NOTE: This is an extremely strenuous physical fitness course, including an extensive outdoor component, which requires students to achieve superior levels of fitness at a military mandated standard. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 4000 Naval Ship Systems I - Weapons 3 CREDITS

Theory and employment of weapon systems. The student explores the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance and target destruction. Fire control systems and major weapon systems are discussed, including basic capabilities and limitations. The physical aspects of radar and underwater sound are explored, as well as the facets of command, control and communications as they relate to weapons systems integration. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.

NAVY 4020 Leadership and Ethics 3 CREDITS

This course is designed as the capstone course of the NROTC academic sequence. The course is an overview of the duties, responsibilities and expectations of a junior officer. Through the use of in-class discussion, panels, role playing and out-of-class projects, the course addresses personal ethics, code of conduct, military law, and administrative skills required of the junior Navy or Marine Corps Officer. Course meets at University of Utah and is for ROTC students only. See Veteran's Center with questions.
