Program Goals

Students can complete a Bachelor of Science degree or a Bachelor of Arts degree in Management. The Management major is designed to prepare students to manage effectively in a wide variety of business organizations. The purpose of the major is to ensure that students (1) understand the field of management and the environmental and organizational context in which managers operate and (2) master the fundamental management principles and tools needed to assure their success as managers. Students majoring in Management can:

- Create an effective business plan for a new country entry.
- Motivate, coordinate, and lead others to excellent performance.
- Develop plans to lead an organization through a significant change effort.
- Effectively communicate across different cultures.

Program Requirements

To fulfill the requirements for a Management major, students must complete the courses outlined below. Students must maintain a minimum 2.3 GPA in business program coursework. Students are also required to complete the ETS Major Field Test in Business before they are eligible to graduate. Exceptions may be considered by program chair when relocation or other conditions make completion of the test impractical.

Students must meet the university-wide graduation requirements in addition to the Management major:

- WCore or Honors College requirements
- 30 upper division hours
- 124 total hours

Undergraduate Business Core

Students in most business majors, including management, complete a common undergraduate core designed to develop skills in all functional areas of business. There are two components to the common undergraduate core: the lower-division requirements, and the upper-division requirements. Since many of the lower-division core requirements are prerequisites for upper-division core requirements, students should work to complete lower-division courses early in their programs. Upper-division core requirements should be taken when prerequisites are met. Prerequisites are noted in the table below.
