PROFESSIONAL AND CONTINUING EDUCATION (NON-CREDIT)

LEADERSHIP CERTIFICATE

The Leadership Certificate is a non-credit, non-degree credential program built for companies and executive cohorts and features a total of ten, two-day-long courses focused on essential leadership skills. Each session goes through a three-stage process: pre-work, practice in real-world activities, and application in the workplace. Throughout each stage, a faculty coach is assigned to work with each participant and is available to consult with participants individually.

Each two-day course is devoted to a specific leadership concept and follow-on projects are coached by a Westminster faculty expert. The program is designed to meet the needs of busy professionals. Limited classroom time means less distraction from work activities. Real-world projects translate into immediate return on investment for your company.

Completion of Certificate Program makes participants eligible for either:

- Prior learning assessment credits towards an Undergraduate Project-Based Bachelor of Business Degree program (up to 12 credits)
- Admission to the Accelerated Project-Based Masters of Business Degree Program at Westminster University (completed in four full-time semesters as
 opposed to the five semesters it usually takes in the Project-Based Masters of Business Degree program)
